10808 Highway 93, Unit B, Building 116  
Golden, Colorado 80403-8200RE: Approval of Extension Request for Partial Closure of Hazardous Waste Unit 374.3 - the 400 Area Process Waste Transfer System at the Rocky Flats Environmental Technology Site (RFETS);  
EPA ID#: CO7890010526

Dear Mr. Nesta:

The Colorado Department of Public Health and Environment, Hazardous Materials and Waste Management Division (the "Division") has reviewed your e-mail dated November 6, 2002 requesting an extension of time to complete the closure of a portion of Unit 374.3 known as the "400 Area Process Waste Transfer System." The 400 Area Process Waste Transfer System includes the process waste line connecting valve vault 13 to valve vault 14, valve vaults 14 through 20, Building 428, Tank D-853, all process waste lines between valve vaults 14 through 20 and Building 428, and all process waste lines originating from Buildings 122, 428, 443, 444, 447, and 460. The closure of the 400 Area Process Waste Transfer System is being conducted under the *Closure Description Document (CDD) for the Partial Closure of Unit 374.3 - the 400 Area Process Waste Transfer System*. The Division received this CDD from DOE and Kaiser-Hill on or about April 24, 2002 with a cover letter dated April 22, 2002. The Division granted approval of this CDD in a letter dated May 24, 2002. Based on schedule impacts due to the reprioritization of other closure activities at RFETS and the increased scope of the closure activities being conducted under this CDD (i.e., the closure of Building 428 and Tank D-853), the Division grants an extension until April 1, 2003 to complete the closure of the 400 Area Process Waste Transfer System. If you have any questions concerning this matter, please contact James Hindman at (303) 692-3345.

Sincerely,

Joe Schieffelin, Unit Leader
